Youth Resources in Frederick County

The Youth Resource Fair and the Guide to Youth Resources in Frederick County are initiatives of the Juvenile Delinquency Policy and Prevention Board (JDPPB), a subcommittee of the Local Management Board. The JDPPB has been working with families over the past several years to address the needs and identify gaps in services for youth in Frederick County.

Through these interactions, The JDPPB found that parents had a hard time finding information on programs and services for youth ages 5-21 .

To assist parents with finding information, the JDPPB created a "Guide To Youth Resources in Frederick County" and will be holding a Youth Resource Fair on May 15th.

The Guide to Youth Resources in Frederick County can be found at www.cityoffrederick.com/police
